Puma • FC • FCUK • Myntra • Marks & Spencer • Levi's • Walmart • Milou • MYTUK

Core Competencies

Sportswear Design • Knitwear Design • Activewear • Technical Design • Trend Forecasting • Collection Development • Tech Pack Creation • Print & Graphic Development • Fabric & Trim Sourcing • Sample Development • Fit Review • Vendor Management • Production Coordination • Cross-functional Collaboration

Professional Experience

Design and Development Lead **Apr 2025 – Present**
MyTUK

- Lead end-to-end product development for **knitwear, sportswear, and lifestyle apparel** from concept through production, driving each seasonal range across the full calendar from initial brief to final delivery.
- Research global fashion, sportswear, and consumer trends to build commercially relevant seasonal collections aligned to brand direction, target demographics, and evolving market demand.
- Create detailed **tech packs** and technical specifications while overseeing sample development, fit approvals, and iterative product refinement across successive prototype rounds.
- Source fabrics, trims, and innovative materials, collaborating with domestic and international vendors to balance quality, cost, lead time, and sustainability priorities.
- Present seasonal collections and product ranges to buyers, ensuring alignment with brand identity, commercial goals, and the specific requirements of each retail market.
- Partner with production teams to safeguard product quality, cost efficiency, and on-time delivery across every stage of the sourcing and manufacturing supply chain.

Design & Product Executive **Sep 2024 – Apr 2025**
Underlinen Fashion House Pvt. Ltd.

- Owned end-to-end kidswear design and product development for **Milou Swish**, driving collections from concept and trend research through **tech packs**, sampling, fit reviews, and final production sign-off across multiple seasons.
- Translated global trend, consumer, and competitor analysis into commercially successful seasonal concepts, defining color palettes, graphics, and print developments aligned to each brand's identity and target price point.
- Directed cross-functional execution across merchandising, sourcing, production, and marketing teams, ensuring design intent held consistently through every stage of the full product lifecycle.
- Authored detailed **tech packs** with garment specifications, construction notes, and measurement charts, standardizing hand-offs to sampling and production teams and reducing costly sampling errors.
- Led fabric and trim sourcing, evaluating vendors on quality, cost, and lead time to protect margins without compromising design integrity or overall garment performance standards.
- Spearheaded sustainable product development initiatives while extending design and development contributions across **FC, FCUK, and Puma** seasonal collections, broadening impact beyond the core kidswear portfolio.

Designer **Apr 2023 – Sep 2024**
Puffer Fashion Business Services Pvt. Ltd.

- Designed innovative kidswear collections balancing comfort, functionality, and commercial appeal for **FC, FCUK, and Myntra** across multiple back-to-back seasonal ranges.
- Developed original prints, graphics, and artwork, translating creative direction into production-ready seasonal ranges tailored to each brand's distinct aesthetic and core customer.
- Built seasonal mood boards, color stories, and trend presentations that shaped overall collection direction and secured buy-in from key stakeholders and merchandising partners.
- Curated fabrics and trims against quality, performance, and cost benchmarks to meet both commercial targets and the functional requirements of active kidswear garments.
- Partnered with product development and production teams to ensure seamless execution from initial concept sketch through sampling to the finished, retail-ready garment.
