PORTFOLIO

Shiwani Kumari

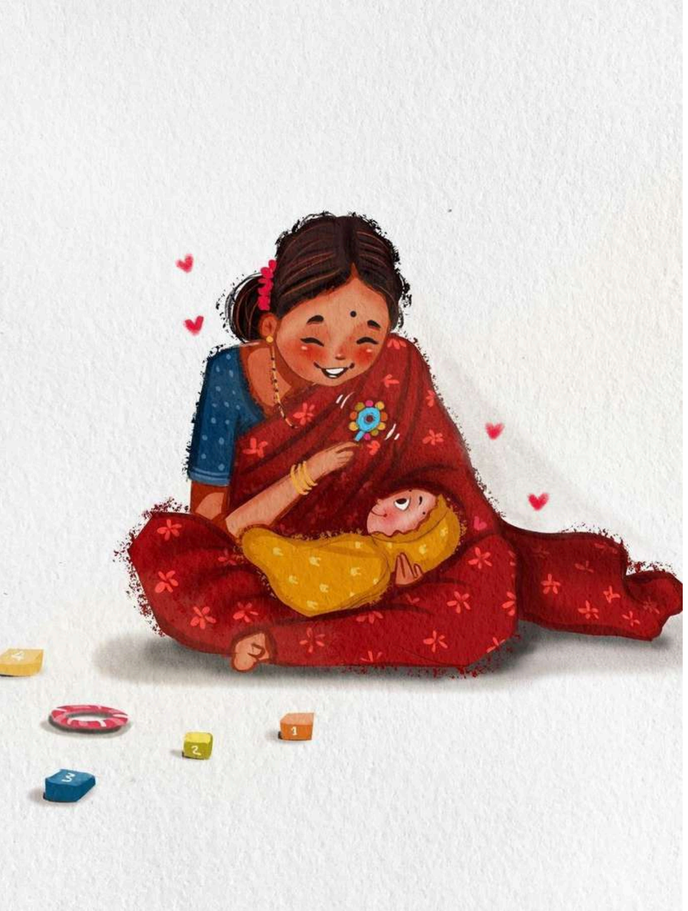

Kidswear

Design Brief :
Design a unisex infantwear collection for Spring/Summer, inspired by the bond between mother and child and the spirit of Mother’s Day.

Concept Note — **AMMA**

AMMA celebrates the unconditional love, warmth, and comfort of motherhood. Inspired by the tender bond between a mother and her little one, the collection translates this emotion into soft, playful, and comforting unisex infantwear.

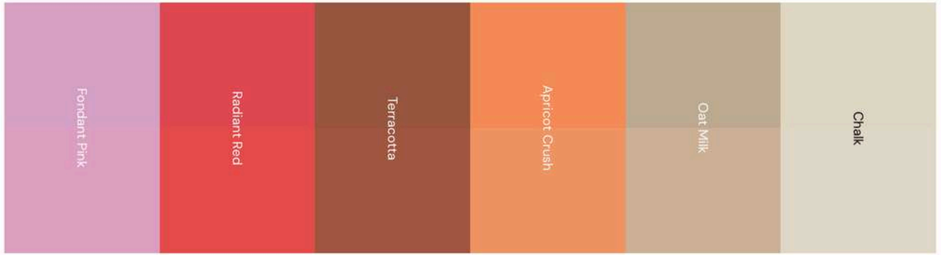

WGSN + COLORO KEY COLORS S/S 24

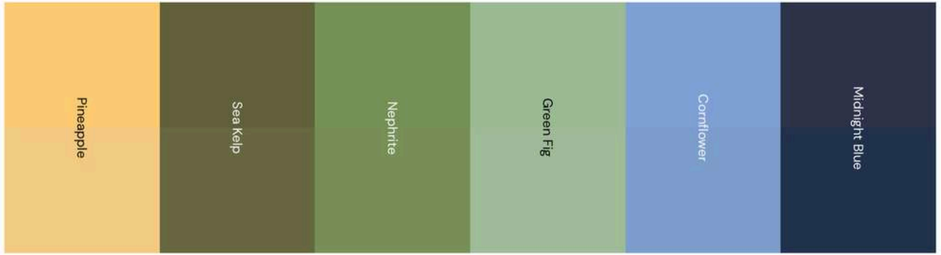

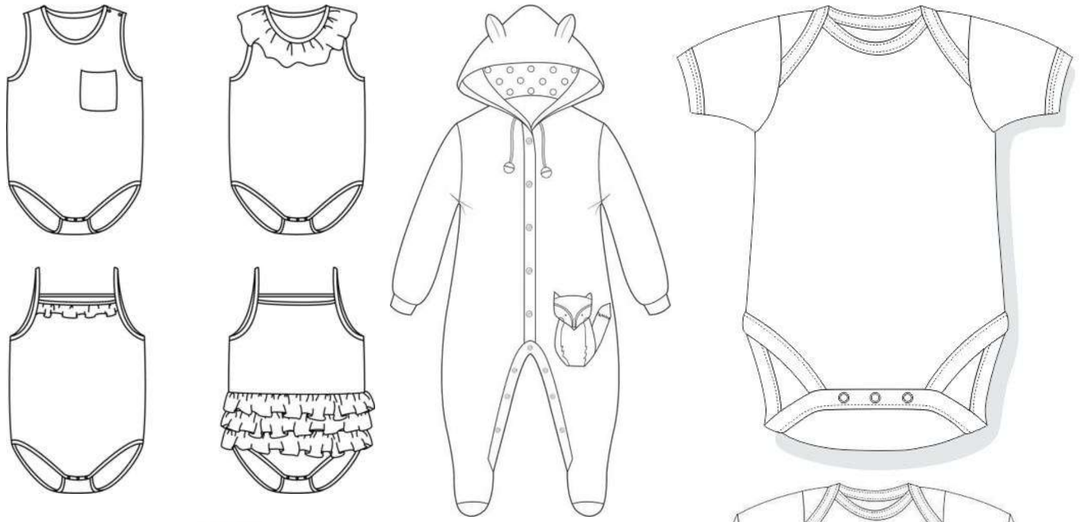

Colour

Protect & Connect S/S 24

For kidswear, the Protect & Connect colours are inspired by a range of emotions, from calm and collective to bright and cheerful, for a versatile yet commercial palette. An energetic dose of energy and warmth is injected into this palette with Radiant Red, Fondant Pink, and WGSN's Colour of the Year, Apricot Crush. Grounding hues of Oat Milk, Sea Kelp, Chalk and Midnight Blue are paired with soothing mid-tone pastels such as Green Fig and Cornflower.

WEFT KNITTING NOTATION

Symbol	Stitch/Action	Description
^	FRONT BED KNIT	New loop is formed on the front needle bed.
V	BACK BED KNIT	New loop is formed on the back needle bed.
T	TUCK	New yarn is received while the previous loop is retained.
—	MISS/FLOAT	Needle does not receive the new yarn; yarn floats over the needle.

Sportswear

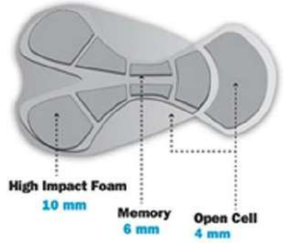

Sportswear for TRAINING design collection

To design a menswear training range solving the problem of saddle score while cycling for spring summer 23

Defining Problem

•Saddle Sores
Saddle sores are painful skin lesions that can form on parts of the body that are in contact with a bicycle seat.
When the skin on your thighs rub against the bicycle seat during cycling, it can get chafed, resulting in redness and irritation.

CARBON ENHANCED FOR NATURAL ANTIBACTERIALS

- Although best when blended with synthetic materials, to get the best of both worlds, Merino wool has some excellent properties that are perfect for a cycling jersey. Merino wool is naturally very effective at wicking away moisture. It will keep you cool in the summer and warm in the winter (it even helps you to stay warm when wet). Merino wool is also naturally odour resistant and antibacterial. However, it is not as effective at preventing foul-smelling bacteria as some of the modern antibacterial treatments.

- Adds stretchiness and quickly returns to original shape
- Too much Elastane and the material is not very breathable or comfortable.
- As mentioned above, it is common for manufacturers to blend a combination of fabrics can make for a cycling jersey that is high quality, warm, moisture-wicking and retains its shape after multiple uses. The most common being polyester and elastane.

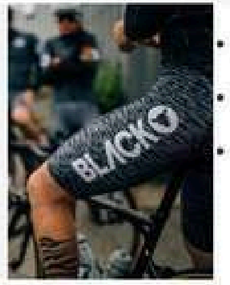

- Excellent at wicking away moisture. However, the quality can be highly variable due to the manufacturing process, So not all Polyester is the same (more on that below).

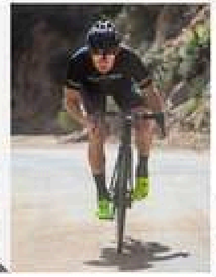

The fibres can be manufactured into different thicknesses, patterns and sizes. It is a strong fibre, but not as strong as Nylon.

- Soft to the touch, warm and strong fibres.
- Not as breathable and moisture wicking than polyester
- More expensive than polyester.

- The intricate production of materials such as Polyester means that not all polyester is made to the same high quality. There are fabric producers all over the world; however, some are more well known than others due to their high-quality products and years experience in refining the perfect sportswear and fabrics. Fabric makers such as MITIand Carvico in Italy, are continually innovating and releasing high-quality fabrics that offer different characteristics. MITIs' material can be found in a lot of the best cycling jerseys.

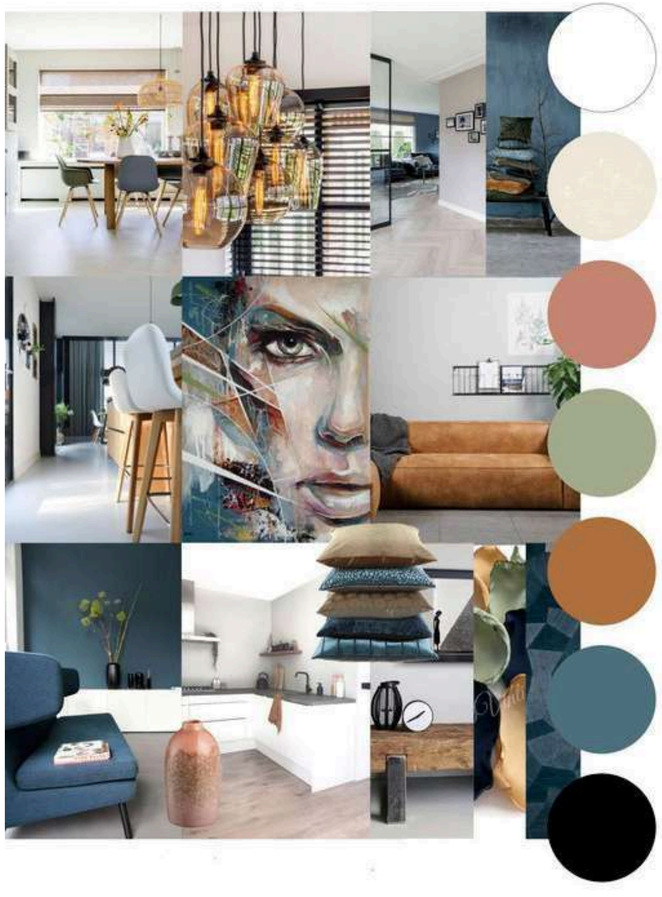

- The fabric, certified according to Global Recycled Standard, when compared to the manufacturing of conventional / virgin polyester, mechanically-recycled polyester, per 1Kg of Woven Polyester fabric, results in:
- Approximately 62% less energy used
- About 99% less water used
- Up to 35% less waste created
- Upwards of 20% less CO2 emitted

Project Brief: SS27 Varsity Capsule Collection – women' wear

Your objective is to design a 6-look Spring/Summer 2027 Varsity Capsule Collection for Womenswear brand AZ By Azorte .

Traditional American collegiate wear is evolving. For SS27, the market is moving away from flat minimalism toward high-tactility, heavy graphics, artisan embellishment details, and fluid tailoring. Your collection must capture the nostalgia of school athletics while feeling entirely progressive and aligned with SS27 forecasting

This needs to be supported by a concept mood board, illustraions/ AI digital renders of looks , Graphics with details & technique play and a brief of suggestive fabrics for the styles.

Below are some of AZORTE recent looks for a brief idea of the brand handwriting and direction :

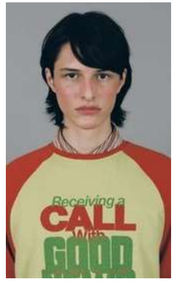

WGSN RESEARCH & FORECAST BOARD

Retro Refresh

Tapping into Gen Z's fascination with nostalgia, #70s surf and beach culture mixes with sportswear to inspire vintage graphics.

Design strategies

As athletic culture increasingly permeates ready-to-wear, add logo-lock ups and #BadgedUp appliqués to tees, shorts, jackets and accessories

Incorporate clubhouse-inspired #BeyondTheBeach apparel to pair with swimwear. Otherwise, leverage the #ActiveIntimates trend and pair with matching underwear to increase average order value

Use sports binding, ribs and taping to add a vintage sports look

Be creative with typography; experiment with layered looks and wavy orientation

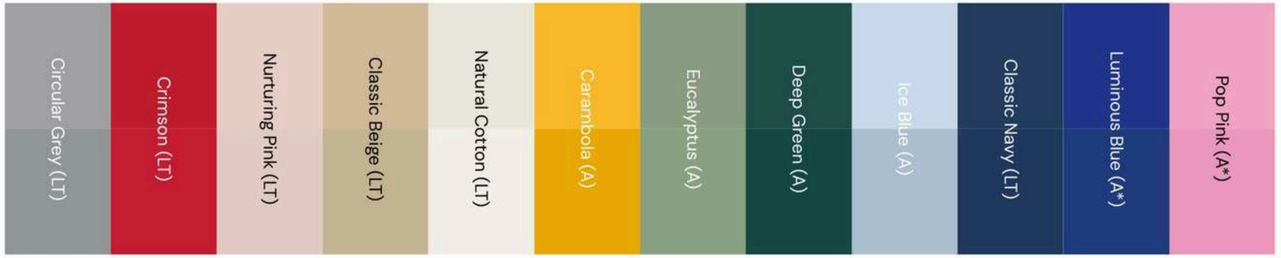

---

Relevant for: T-shirts, shorts, sweatshirts, jackets, swimwear, underwear, accessories

COLOUR STUDY &ANALYSIS

Colour

TheEmpowered Play colour palette, curated from our S/S 27 Women's Colour Forecast, balances soft pastels and foundational, long-term classics with pops of joyful brights.

For sustainable palette planning, WGSN's colours are arranged in three categories: **(S) for seasonal colours** – S/S 27, **(A) for annual colours** – S/S 27 to A/W 27/28 and **(LT) for long-term colours** – S/S 27, A/W 27/28 and beyond

CONCEPT /RESEARCH BOARD

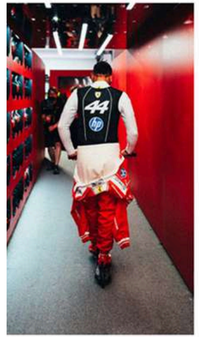

HYPER VARSITY

Hyper Varsity celebrates the spirit of competition by blending the energy of football, basketball, Formula 1, and other iconic sports into contemporary womenswear. Inspired by stadium culture, team pride, and performance, the collection reinterprets athletic heritage through bold graphics, varsity influences, and elevated streetwear silhouettes.

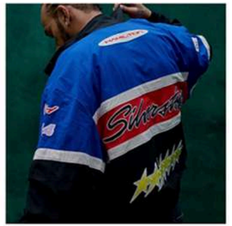

DESIGN STRATEGY

- Cross-sport inspiration from football, basketball, motorsport, and athletics.
- Bold sports typography, jersey numbers, and varsity-inspired graphics.
- Statement placements with patches, badges, and layered graphic treatments.
- Performance detailing through mesh, piping, paneling, and technical trims.
- Heritage team colors with bold accents and vintage-inspired finishes.
- Relaxed oversized fits with a modern athletic and streetwear attitude.

WOKE / STUDY

SOCIAL

WEEKEND ESCAPES

KEY DESIGN FEATURES

1. ModularPockets

- Dual entry side pockets with hidden zips and internal divider. - Keeps essentials secure and organized without bulk.

2. Adjustable Hem

- Drawcord at hem to customise fit and silhouette.
- Helps block wind and adds versatility to styling.

3. Articulated Sleeves

- Panelled construction for better movement and comfort.
- Allows ease during daily activity and layering.

4. Adjustable Cuffs

- Velcro strap with snap for a secure, flexible fit.

5. Subtle Reflective Detail

- Back yoke and sleeve accents for low-light visibility.

FUNCTIONALITY & EVERYDAY USE

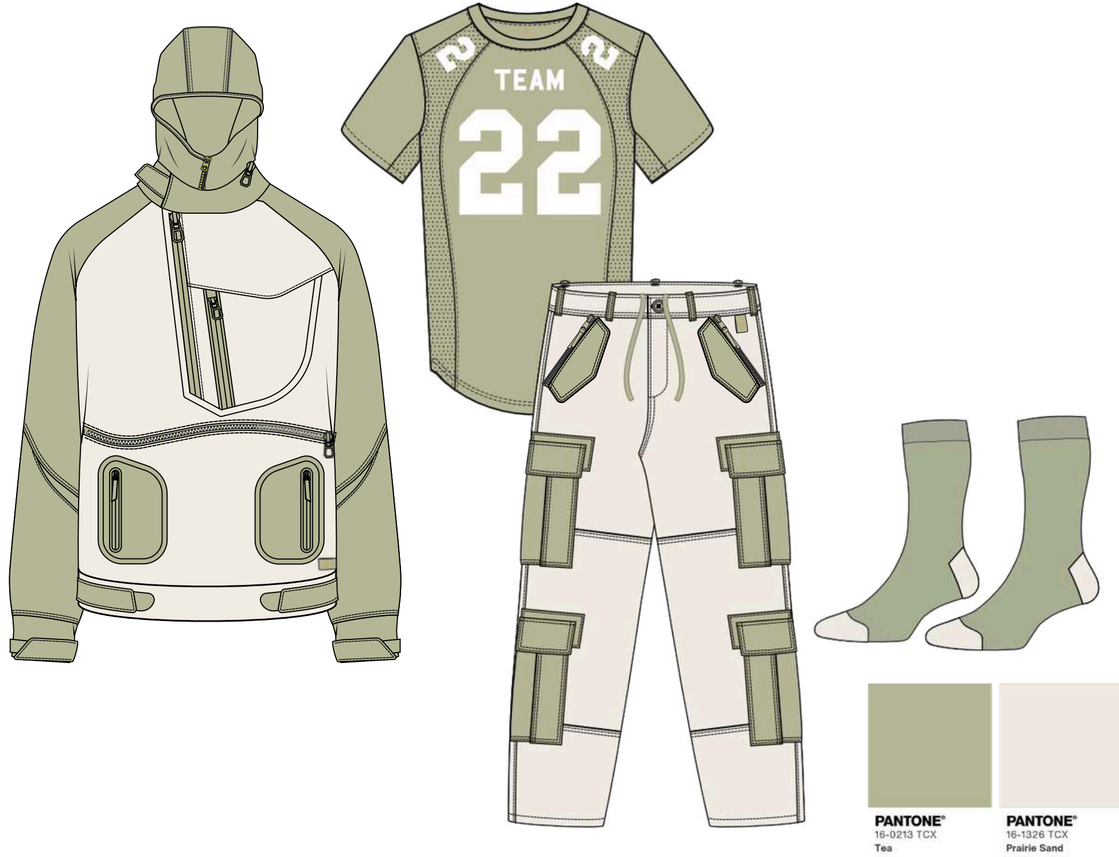

•Lightweight&breathable fabric for all-day comfort in Indian weather.

•Durable ripstop construction for long-lasting wear.

•Smart storage with secure pockets for essentials like phone, wallet, keys.

•Adjustable fit for personalised comfort and multiple styling options.

•Reflective detail for added safety during evening commutes.
